SUMMARY OF WORK SINCE 1974

- 1974** Started carpenter union apprenticeship.
Working in various degrees of commercial & residential areas.
- 1979** Re-located to the San Francisco Bay Area.
Working as a foreman in high-end custom kitchen, bathroom and additions.
- 1984** Went to work for Skywalker Development (George Lucas of Star Wars), working on very high-end trim and punch list of his 40,000 sq. ft. main house.

During this time designed & built first house.
- 1986** Skywalker finished. Started working on designing and building second house full time.
- 1987** Received California Contractor License after passing state test.
Then started The Ventresca Building Company.

The projects consisted of light commercial, custom kitchens and bathrooms, with a wide range of various custom projects.
- 1988** Designed & built house for speculation. It was sold in 1989.
- 1989** Designed and built fourth house on contract for client.
- 1995** Designed and built fifth house on contract for client.
- 1996** Continued with custom room additions, kitchens & baths.
- 2003** Late fall re-located to Indianapolis.
Entered into restoration of early 1900's homes.
- 2005** Continued in custom projects, with highlights on European bathrooms.
- 2010** Replaced complete façade at 715 North Senate and its north entrance.
